

# MONTHLY FACTSHEET

29 FEBRUARY 2020

## KEY STATISTICS

Share Price	749.0p
Net Asset Value (NAV) per Share	811.9p
Premium (Discount)	(7.7%)

## SUMMARY OF APPROACH

Alliance Trust aims to be a core equity holding for investors that delivers a real return over the long term through a combination of capital growth and a rising dividend. The Trust invests primarily in global equities across a wide range of industries and sectors to achieve its objective.

The Trust's investment manager, Willis Towers Watson, has appointed a number of stock pickers with different styles, who each ignore the benchmark and only buy a small number of stocks in which they have strong conviction. Investors therefore get the benefit of both highly focused stock picking to increase potential outperformance versus the benchmark and manager diversification to reduce risk and volatility. The Trust's diversified but highly active multi-manager portfolio is competitively priced.

## INVESTMENT PERFORMANCE

### ABSOLUTE PERFORMANCE (TOTAL RETURN IN STERLING)

### CUMULATIVE PERFORMANCE (%)

To 29 February 2020	5 Years	3 Years	Since 01.04.17 <sup>5</sup>	1 Year	YTD	Month
Total shareholder return	68.6	16.2	14.9	3.6	-10.8	-9.0
NAV total return	56.4	20.2	17.9	6.6	-7.3	-5.7
MSCI ACWI total return <sup>4</sup>	58.5	19.2	18.4	8.2	-5.7	-5.1

The NAV total return reflects the impact of owning investments other than global equities prior to 30 June 2019, which had a drag on the return. Between 1 April 2017 and 29 February 2020, the performance of the equity portfolio before fees (a good approximation of the NAV total return after costs had these legacy investments not been included), was 21.2% versus the return on the MSCI ACWI Index<sup>4</sup> of 18.4%.

### DISCRETE PERFORMANCE (%)

From To	28-Feb-19 29-Feb-20	28-Feb-18 28-Feb-19	28-Feb-17 28-Feb-18	29-Feb-16 28-Feb-17	28-Feb-15 29-Feb-16
Total shareholder return	3.6	1.6	10.5	40.1	3.5
NAV total return	6.6	1.0	11.7	32.3	-1.6
MSCI ACWI total return <sup>4</sup>	8.2	2.7	7.3	36.7	-2.8

OCR Year to 31 Dec 2019 <sup>7</sup>	0.64%

## Risk warnings

**Past performance is not a reliable indicator of future returns. The value of shares and the income from them can rise and fall, so investors may not get back the amount originally invested. Net Asset Value ("NAV") performance is not the same as share price performance and investors may not realise returns the same as NAV performance. Exchange rate changes may cause the value of overseas investments to go down as well as up and can impact on both the level of income received and capital value of your investment. Investment trusts may borrow to finance further investment (gearing). The use of gearing is likely to lead to volatility in the NAV, meaning that a relatively small movement, down or up, in the value of a trust's assets will result in a magnified movement, in the same direction, of that NAV. This may mean that you could get back less than you invested or nothing at all.**

Notes: All data is provided as at 29 February 2020 unless otherwise stated. All figures may be subject to rounding errors. Sources: Investment Performance data is provided by The Bank of New York Mellon Performance & Risk Analytics Europe Limited, Morningstar and MSCI Inc; Key Statistics, Key Facts and Charges data is provided by The Bank of New York Mellon (International) Ltd. NAV and NAV total return is based on NAV including income with debt at fair value, after all manager fees (including Willis Towers Watson's fees) and allows for any tax reclaims when they are achieved. The NAV total return shown in the factsheets up to May 2018 was based on NAV excluding income with debt valued at par.

1. Total borrowings at par value divided by net assets.

2. Factsheet reissued to restate the net gearing level which was incorrectly reported with total borrowings calculated at fair value rather than calculated as stated as total borrowings at par value minus total cash and equivalents, divided by net assets with debt at par.

3. Annual dividend per share divided by share price.

4. MSCI All Country World Index Net Dividends Reinvested.

5. 1 April 2017 was the date that Willis Towers Watson was appointed investment manager.

6. The OCR target of 0.65% is based on NAV reported as at 31 December 2017.

7. The OCR for year to 31 December 2019 was calculated using the average Net Asset Value (NAV) denominator of opening and closing NAV for the year. From February 2020 onwards, the OCR will be calculated in line with the industry standard using the average of net asset values at each NAV calculation date. Using the new methodology, the OCR for the year to 31 December 2019 would have been 0.62%.

## INVESTMENT COMMENTARY

For the month of February, the Trust's Total Shareholder Return and NAV Total Return were -9.0% and -5.7% respectively versus a returns of -5.1% for the MSCI All Country World Index (ACWI).

In a down month for equities, the Trust's gearing, which was at the lower end of the typical range, led to a slight performance drag.

In February, the Coronavirus (COVID-19) dominated the focus in markets. The increase in COVID-19 cases outside China led to a sharp fall in developed market equities, with the S&P 500 ending the month down 8.2%. Emerging markets outperformed developed economies, falling by only 5.1%, as investors factored in the declining rates of new infections in China compared with an increasing number outside of the Chinese region.

Within the Trust's portfolio, Airbus was a material detractor from performance over the month, as the company was impacted by concerns related to the coronavirus outbreak and the airline industry. NVIDIA was a positive contributor to performance in February, as the company reported better than expected Q4 demand growth in the gaming and data centre segments. It may also have benefited from the perception of an increasing number of people remaining at home due to the Coronavirus.

We continue to monitor market conditions closely and our managers are again starting to find more interestingly priced opportunities in this much more volatile market.

**Past performance is not a reliable indicator of future returns. The mention of any specific shares should not be taken as a recommendation to deal.**

## Important Information

Alliance Trust is an investment company with investment trust status. Alliance Trust invests primarily in equities and aims to generate capital growth and a progressively rising dividend from its portfolio of investments. Alliance Trust currently conducts its affairs so that its shares can be recommended by Independent Financial Advisers (IFAs) to ordinary retail investors in accordance with the Financial Conduct Authority (FCA) rules in relation to non-mainstream investment products and intends to continue to do so for the foreseeable future. The shares are excluded from the FCA's restrictions which apply to non-mainstream investment products because they are shares in an investment trust. The shares in the Trust may also be suitable for institutional investors who seek a combination of capital and income return. Private investors should consider consulting an Independent Financial Adviser who specialises in advising on the acquisition of shares and other securities before acquiring shares. Investors should be capable of evaluating the risks and merits of such an investment and should have sufficient resources to bear any loss that may result. The views, information and data in this publication should not be deemed as a financial promotion or recommendation. Alliance Trust is not authorised to give financial advice.

For security and compliance monitoring purposes, telephone calls may be recorded.

The Alliance Trust Board has appointed Towers Watson Investment Management Limited (TWIM) as its Alternative Investment Fund Manager (AIFM). TWIM is part of Willis Towers Watson. Issued by Towers Watson Investment Management Limited. Towers Watson Investment Management Limited, registered office Watson House, London Road, Reigate, Surrey RH2 9PQ is authorised and regulated by the Financial Conduct Authority, firm reference number 446740.
